

Amendments to Claims

This claim listing replaces all prior versions of the claims

1. **(Currently Amended)** An article, ~~which is an ovenware item,~~ comprising a thermoplastic polymer composition, wherein said thermoplastic polymer composition has a through plane thermal conductivity of 1.0 watt/m°K or more and is a liquid crystalline polymer, and
wherein the article is an ovenware item.
2. **(Previously Presented)** The article as recited in claim 1, wherein said thermal conductivity is about 2 watt/m°K or more.
3. **(Previously Presented)** The article as recited in claim 1, wherein a thermoplastic in said thermoplastic polymer composition has one or both of a melting point and glass transition temperature of about 250°C or more.
4. **(Canceled)**
5. **(Previously Presented)** The article as recited in claim 1, wherein said thermoplastic polymer composition comprises a filler having a thermal conductivity of about 50 watt/m°K or more.
6. **(Previously Presented)** The article as recited in claim 4, wherein said thermoplastic polymer composition comprises a filler having a thermal conductivity of about 50 watt/m°K or more.
7. **(Previously Presented)** The article as recited in claim 5, wherein said filler comprises graphite.
8. **(Previously Presented)** The article as recited in claim 6, wherein said filler comprises graphite.
9. **(Currently Amended)** The article as recited in claim 2, wherein ~~a thermoplastic in~~ said thermoplastic polymer composition ~~is a liquid crystalline polymer~~ having one or both of a melting point and glass transition temperature of about 250°C or more, and said thermoplastic composition also comprises a filler having a thermal conductivity of about 50 watt/m°K or more.

10. (Previously Presented) The article as recited in claim 9, wherein said filler comprises graphite.

11-22. (canceled)
